

EDGEWOOD CEMETERY
Lancaster, Texas
1845 - 1987

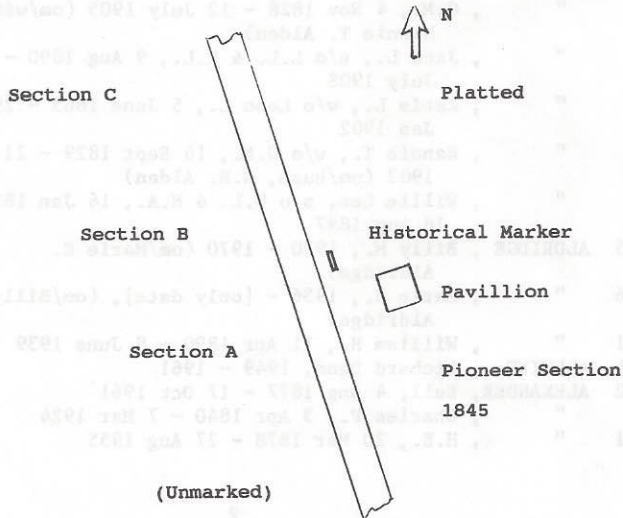

LOCATION: About one-quarter mile south of Belt Line Road, south of the city of Lancaster, Texas on both sides of Nokomis Road. Approximately 25 acres. MAPSCO 86M

Mr. F. M. Rawlins was aided by members of the Lancaster Genealogical Society in compiling this record of approximately 3600 interments. The initial work was done in 1980 and updated in 1987. "FMR" notations were added by F. M. Rawlins. There are no known records on the possibly 200 or more unmarked graves.

The first grave, referred to below in the historical marker inscription, is located in the south end of the portion of the cemetery on the east side of Nokomis Road. About 3 acres in this area is the original cemetery referred to as the Pioneer Section, designated "PS", where many of the earliest graves are found.

Section "A" refers to the south end of that part of the cemetery west of Nokomis Road where there are standing markers. These markers are shown as A-###. Sections "B" and "C" are north of Section "A" and have markers flush with the ground and are designated as in Section "A". Listings of a letter in " ", or a number without a letter prefix will be in the area North of the PS section on the west side of the road.

A Texas Historical Commission Marker, donated by the Lancaster Historical Society, reads: "Edgewood Cemetery. Earliest grave here is that of Lizzie Richardson, a pioneer child who died in the summer of 1845. The site for the cemetery was chosen by Roderick Rawlins, one of the area's first settlers; he was buried here in 1848. Among the graves in the older section is that of James Lemon, veteran of the American Revolution, who died on July 4, 1858. The land was not officially set aside as a cemetery until it was acquired from Thomas McKee Ellis in 1877. Since then the Lancaster Cemetery Association has bought additional land and currently maintains over 1500 graves." (1974)
