

This map is adapted from a map compiled by W. J. Powell in September 1961 from photostats of maps made by David Brennan dated October 16, 1918, and from maps of north and south sections made by W. J. Powell in May 1922. Single Grave patterns for Sections 18, 19, and 38 through 41 are compiled from cemetery records and as noted on the ground. Boundary line dimensions are compiled from deeds of acquisition and from deed conveying property along the south side to the City of Dallas in August 1968. Property between the northeast property line of record and chain link fence is maintained by the City of Dallas as a park.
