A DGS HYBRID SEMINAR — JULY 22nd, 2023

The internet plays an increasingly important role in genealogy. The days of researching without this tool are quickly fading. With billions of records available online and that number growing daily, using the world wide web to build your family's history has become a necessity. Cyndi Ingle, founder of Cyndi's List, will be joining us from her home in Washington to guide us in enhancing our use of this essential tool. Join us for this seminar and make the internet work for you!

Welcome! • 9:25 - 9:30 am (Central Daylight Time)

Session 1 • 9:30 - 10:40 am ~ Genealogy and the Internet — A Match Made in Heaven The Internet was made for genealogy. It really was. All the cool things we can do online make our life much easier and our research more productive: searching, sharing, publishing, and more. The trick is to learn to be savvy about using all the online tools available to us to make this truly a match made in heaven.

Break - 10:40 - 10:55 am

Session 2 • 10:55 - 12:05 pm ~ Cyndi's List in Practice Sometimes overwhelming to beginners and sometimes underused by veterans, Cyndi's List is a research tool that is robust with resources helpful in everyone's research. Using specific examples for beginners, as well as more advanced researchers, we will explore the site and point out how to make the most of the categories and the links found within.

Lunch - 12:05 - 12:50 pm

Session 3 • 12:50 - 2:00 pm ~ The Path to Digital Libraries and Archives Today every nook and cranny of the Internet is filled with hidden gems in digital library and archived collections. Often part of a special project or a larger website, these collections aren't always easy to find and explore. We will discuss

methods for locating them and, once found, methods for using them to answer specific research questions.

Break - 2:00 - 2:15 pm

Session 4 • 2:15 - 3:35 pm ~ Smarter Searching: Refining Search Parameters for Genealogists Are you still using only the basic search options available on your favorite genealogical research sites? Do you get a lot of less-than-helpful search results? We will explore features and strategies you can use to tighten up the searches and make your online research more productive.
